

IN IT TO WIN IT

YEAR 1, 10th Sunday of Ordinary Time

This messy, yet classic and engaging problem solving activity requires splitting the room into two large groups with the task of building an egg package that can sustain an eight foot drop. A variety of tools and other materials should be provided to the teams.

After the packages have been built, each team must also present an advertisement for their package highlighting what makes it unique and how it works. At the conclusion of the presentations, each group will have to drop their egg using their package to see if it really works.

Aside from teaching the groups to work together and communicate, it also brings them together with the common goal of both winning the egg drop and successfully creating an egg package.
